KRIS MANDVIGHAR

DATA ANALYST | POWER BI | SQL | PYTHON

PROJECTS

Amazon Sales Dashboard | Python, Pandas, Power BI ([GitHub](#))

- Analyzed Amazon sales data using Python and Pandas for data cleaning, transformation, and exploratory data analysis.
- Developed an interactive Power BI dashboard using data modeling, DAX measures, and visualizations to analyze sales, orders, products, discounts, and regional performance.

HR Analytics Dashboard | Power BI ([GitHub](#))

- Built an interactive HR dashboard to track employee attrition, headcount, gender diversity, department performance, and average salary.
- Created DAX measures, calculated columns, and data models to generate meaningful workforce insights.

Blinkit Data Analysis | Python, Pandas ([GitHub](#))

- Analyzed 8,000+ grocery sales records using Python and Pandas, performing data cleaning and exploratory data analysis.
- Identified insights into sales trends, top-performing categories, order patterns, and customer behavior.

Shakti Sales Store Dashboard | Power BI ([GitHub](#))

- Developed an interactive Power BI dashboard to analyze sales, profit, and category performance.
- Applied data modeling, DAX measures, and interactive visuals for dynamic business reporting.

IPL Dashboard | Power BI ([GitHub](#))

- Developed an interactive dashboard analyzing teams, players, match performance, and season statistics.
- Used DAX measures and interactive visuals to identify trends and performance insights.

DECLARATION
